Contest on course for Southampton

Contest 34—a magnificent addition to the Contest range

Designed by Dick Zaaf this 3 tonner combines splendid performance, comfortable accommodation, first-class equipment and the luxurious finish for which Contests are so well known.

There are berths for up to eight in three separate cabins (including a full double bed in the owner's cabin aft). A spacious galley and proper navigator's quarters complete the spacious interior. On deck there is plenty of room for working or sunbathing, and the cockpit will hold a full crew. Equipment depends on the owner's choice, but the standard price includes working sails, Volvo Penta diesel, full lighting, cooker, and other essential 'sail away' items.

OTHER CONTESTS INCLUDE THE C.25, C.28, C.30, C.31HT, C.36 and C.48

For full details write or phone to:

UNITED KINGDOM CORRESPONDENT: MICHAEL BEETON, 62 VICTORIA RD., WOODBRIDGE, SUFFOLK, IP12 1EL

Fishers—universally, are accepted as one of the best range of cruising yachts built today. Not only are they professionally available in most yachting markets; but they have been proven to be just as capable of broad reaching through the Caribbean Islands, anchored off a Mediterranean beach, beating to windward under sail down Channel or motoring against a Pacific gale. The enclosed forward raked wheelhouse, shelters from sun as well as sea. Deep protective bulwarks add all-round safety. The refined traditional hull shape, perfects sailing and seagoing performance. The range of 25, 30, 34, 37 and 46 foot models with alternative accommodation layouts provides the discriminating buyer with his ultimate choice. All of these vessels have a charm and character which is unique. British design, ingenuity and quality at its international best.

THE SUPERCRUISERS

ACHILLES

**OSTAR 76
2 ENTERED
2 FINISHED**

This year's exceptionally difficult Single-handed Transatlantic Race provided more proof of the sea-worthiness, speed and stamina of the ACHILLES range. Our 9 Metre finished in 39 days sailed by the Designer and Builder whilst the 24ft was the smallest yacht

to finish the race, taking 49 days. The 9 Metre was a standard production yacht and the 24 was completed by the owner from a kit. You can complete your own Achilles from a kit or have one luxuriously fitted out at our works at a surprisingly low price.
